WHO WE ARE:

E Tech Group is one of the largest engineering and system integration firms in the United States providing automation, control, and information solutions throughout North America. We pair deep industry knowledge with integration best practices. Our diverse offerings, and depth of knowledge have made us a sought-after partner with Fortune 1000 customers who are seeking single-source, turnkey design and automation partners. E Tech Group has more than **600 team members and over 450 engineers**, who have completed over **20,000 successful projects** across a wide variety of industries including:

CAPABILITIES AND SERVICES ACROSS INDUSTRIES:

Industry Verticals	Main Automation Partner (MAP)	IT/OT Risk Assessment/ Remediation	Safety Audits/ Remediation	Advanced Software Systems	Process/ Machine Control	Batch Control	Robotic/ AGV Integration	Sortation and Palletizing	Coordinated Drive Systems	Building Automation	24/7 Support
Life Sciences	●	●	●	●	●	●	●	●	●	●	●

PARTNERS:

- Control Engineering 2025 System Integrator of the Year — Plant Engineering
- RA PLATINUM System Integrator — A Rockwell Automation Partner
- Ignition Premier Integrator
- AVEVA Endorsed System Integrator — Endorsed Operate
- PMI Project Management Institute
- Microsoft CERTIFIED Partner
- CSIA CERTIFIED
- ABB Authorized Robotics System Integrator
- Solution Partner Automation Drives — SIEMENS
- Alliance Certified — Schneider Electric
- ISA
- TÜV FS Engineer ID-No.:0000/00
- vmware PARTNER PREMIER SOLUTION PROVIDER

Beyond Automation and Control

DRIVING EFFICIENCY, COMPLIANCE, AND PROFITABILITY IN FOOD & BEVERAGE MANUFACTURING

E Tech Group partners with leading food and beverage manufacturers to deliver automation solutions that enhance productivity, ensure regulatory compliance, and drive operational efficiency. With over 30 years of experience in process automation, packaging, and material handling, we help clients overcome industry challenges and optimize every stage of production.

Outdated systems and unexpected downtime are costly. That's where we come in. Our industry-leading engineers design and implement automation and control solutions that improve efficiency, reduce maintenance costs, and ensure compliance. Whether you need system upgrades, real-time monitoring, or turnkey integration, we provide scalable solutions to keep your facility productive and profitable.

FACILITY AUTOMATION

- PLC / PACs
- HMI and SCADA solutions
- AC/DC drive systems
- Motion control
- Machine automation
- Data historians
- Traceability/genealogy
- Line performance (OEE) and downtime tracking
- Clean-in-Place (CIP) controls
- High-Temp Short Time (HTST) pasteurization controls
- Electrical design (including panel design)
- IT/OT solutions
- Network assessments, mitigation and remediation
- Industrial Internet of Things (IIoT) solutions
- Recipe management
- Dashboarding/KPIs
- Total Quality Management (TQM) systems

MATERIAL HANDLING & BUILDING AUTOMATION

- Ingredient/product delivery
- Packaging systems
- Automated conveyor systems
- Palletizing solutions
- PackML line integration
- Automated Guided Vehicle (AGV) controls and integration
- System integration
- Process cooling/heating systems (water and steam)
- Chiller controls
- Industrial HVAC systems
- Clean room HVAC controls
- Industrial Internet of Things (IIoT) solutions
- Electrical power monitoring systems (EPMS)and remediation
- Industrial Internet of Things (IIoT) solutions
- Recipe management
- Dashboarding/KPIs
- Total Quality Management (TQM) systems

SEGMENTS SERVED

- Processed food manufacturing
- Dairy processing plants, including liquid dairy, yogurt, cheese, ice cream, etc.
- Breweries and distilleries
- Pet food manufacturing plants
- Juice manufacturing plants
- Large scale commercial bakeries
- Snack foods and candy
- Meat processing facilities

PROJECT STANDARDS

- OSHA compliance
- Safety consulting
- Safety audits and risk assessments
- Safety functional requirement specifications
- Safety component and function validation
- Machine guarding
- Equipment safety design
